Maintenance

At Aqua-Tech Pool Services, we have a fully trained staff to provide regularly scheduled maintenance for our commercial and residential pool owners. Our staff will come out to run a multi-point inspection on all the equipment including: the cleaning system, the pump, heaters, filters, lights, baskets, strainers, filters, pressure switches, timers, and grade the pool's over all integrity. Aqua-Tech Pool Services, also offers seasoned Pool Technicians that will do full service weekly visits to your pool that includes, checking, suppling, and adjusting all chemical levels, brush, hammerhead vac, empty skimmer and pump filter baskets, and backwash as needed.

After

As with anything we have of value, anything we treasure, a house, a car, an appliance, or even a relationship, everything needs to be properly maintained and given the proper attention or it will break, deteriorate or stop working all together. Aqua-Tech has Service Technicians that bring over 20 years experience in all pool related panel boards, heaters, filter and motor swaps, variable speed motors, tile, coping, and re-plaster.
